

1. Print the template on regular paper or cardstock and cut out the pieces. Make folds along all dashed lines.
2. Beginning with the head, use glue or double-sided tape to secure the A tab to the back of the piece next to it. Continue this pattern with the remaining tabs in alphabetical order. Close the top of the head like a lid and secure it to the Q tabs. Close the bottom of the head with the R tabs to complete the shape.
3. Fold each horn in half along the center dashed line and secure so the design is two-sided. Butterfly the tabs outward and use them to attach the horns to the top of Mike's head.
4. Fold each arm in half along the center dashed line and secure so the design is two-sided. Butterfly the tabs outward and use them to attach the arms to the sides of the body.
5. Fold each leg in half along the center dashed line and secure so the design is two-sided. Butterfly the tabs outward and use them to attach the legs to the bottom of the body. Fold the paper at the dashed line at his knees away from you. Now you can place Mike on a table or shelf with his legs dangling over the edge.
